

# Jet Ski Rescue Board

Community Design Number:002722967

The Jet Ski Rescue Board is an inflatable board that is attached to the back of jet ski by a towing 'D' ring and two shock cord 'D' rings which are located at the front .

- Lightweight and easily portable
- Used in conjunction with a Jet ski for a rapid response rescue
- Design has 10 handles to make it easier for the casualty or rescue crew to hold onto the board whilst in action
- The underside of the board is double skinned for maximum abrasion resistance
- Exceptionally tough and durable
- Rapid inflation and deployment
- Minimal training, servicing and maintenance costs

Product Code	WR0213
Length (cm)	160
Width (cm)	95
Height (cm)	12.5
Typical Load (kg)	150
Air Requirements (ltr)	300
Pack size (cm)	97x32x17
Weight (kg)	9
Working Pressure	0.86
Recommended regulator	8 Bar
